

2009 AIA/CES Registered Provider Application Provider Program Summary

Provider Name: **LSI Corporation of America**
Provider No.: **T102**

Program Title: **Laminate Casework Manufacturing Process - A Plant Tour**
Program No.: **LSI 003**
Location: Plymouth, MN
Length: 1.0 hours
Credits: 1.0 LU hours
HSW: Yes
Sustainable Design: No

Learning Objectives: Participants will learn:

1. Selection of materials based on industry standards
2. Construction techniques for manufactured laminate casework
3. Fabrication processes required for consistent quality

Facilitator Qualifications:

1. Dave Eberhardt
Sixteen years in laminate casework manufacturing. Currently production manager for national casework manufacturer. Additional experience in coordination with engineering to production; transportation logistics; and communication with customers.

Method of Delivery: The CES facilitator encourages discussion and questions during a tour format. Program is not designed as a lecture but to be interactive with audience.

AV needed: N/A

Target Audience: Architects, specifiers, owners and design professionals in the industrial/commercial market are the desired audience. The experience level will be assessed in the beginning of each presentation so the facilitator can accommodate her remarks to meet the audience's needs.

Costs: N/A
